

# FIFTH GRADE

## ●●● news ●●●

### Crawford's Corner

Hi Families! We are deep into Night of the Spadefoot Toads in reading. We are digging into the text to find the theme (moral/lesson) and support that theme with evidence and inferences. I sent home an INFORMATIVE writing rubric that needs to be signed - this is the rubric we use throughout the year for writing and the same one the state of Florida uses on FSA. We will complete our first Informative essay next week! Please review it with your child. We will begin small groups and centers this week now that we are organized. Binders should be coming home EVERY DAY, except Fridays, so that you can see the work your child is completing in class. On Friday, I grade the work and you should see the grades on Monday.

### Lee's Lane

Hello Families,  
We are continuing to work on Forms of Energy in Science.  
In Social Studies, students are reading about Ancient America and the Westward Expansion.

Headphones- Please make sure your child has a pair of headphones for their computer work.

### Harvey's Highway

I hope everyone had a great weekend! This week in math we will be learning how to add and subtract decimals in a variety of ways. Last week's homework packet is due on Wednesday and a new homework packet will be issued. We will also be having our first math test on Friday and it will cover all of Topic 1, lessons 1.1 through 1.7, of the Savvas curriculum. Last week's homework packet was a great review for the test and I'll be sure to grade those and give them back to the students on Thursday.
